Caring Hearts, Healing Hands

NovaSure

What is NovaSure

- NovaSure[®] is a procedure for women who experience heavy periods. The procedure can lighten or stop your periods.

Post-Procedure

- Mild cramping, bleeding and backaches are possible after the procedure—if the symptoms worsen, please call our office
- A discharge that is pink or red may appear
- Participate in light activities only as dizziness and nausea are possible for up to 24 hours
- Sexual intercourse can be resumed after the bleeding ends and you feel comfortable

When To Call Our Office - (307) 745-8991

- If you have a fever above 100.4°F
- If you experience worsening pelvic pain that isn't relieved by medication
- If you have nausea, vomiting, dizziness or shortness of breath
- A greenish vaginal discharge occurs
